

Quality

- We test our water hourly at each bottling facility to ensure you receive clean, fresh drinking water. We are members of the International Bottled Water Association (IBWA) and we meet or exceed applicable state and federal bottled drinking water regulations.
- Our 3 and 5-gallon bottles are cleaned, sanitized and refilled up to 40 to 50 times, making them a high quality, cost effective and environmentally responsible bottled water container.

Delivery

- Every Route Sales Representative (RSR) undergoes a background check before being hired.
- Each RSR's driving record is reviewed annually and RSRs receive ongoing driver safety training with certified, in house instructors.
- Each RSR has hand-held devices for full access to your account at anytime.

Customer Service

- Customer follow-up service typically occurs within 24 hours (excluding holidays and weekends, except in cases of emergency).
- Manage your account online at water.com/mywater. View delivery schedules, order products and obtain billing information at your convenience.
- Our automated phone system is available 24/7 and our call centers have extended operating hours, so it is easy to speak with a customer service representative. Both may be reached by calling 800.4.WATERS.

Crystal Springs® – The Clear Choice

Water Selections

Spring Water

Direct from natural protected sources, our spring water is clean, fresh and delicious.

Purified Drinking Water

A popular water choice known for its crisp, clean taste.

Fluoridated Spring Water

The same fresh, clean taste as our regular spring water plus added fluoride, which may help prevent tooth decay.*

Distilled Water

Perfect for traditional distilled water uses, as well as low sodium diets.

Convenient Sizes

Choose from a wide selection of sizes, from economical 3 and 5-gallon bottles to convenient single-serve bottles** by the case.

Sleek Coolers

Hot and Cold or Cold & Room Temperature

(Sizes vary)

A stylish electric dispenser that provides either hot and cold or cold and room temperature water.

Compact Countertop Coolers

(16.75"W x 12"D x 17.5"H)

A convenient electric dispenser that provides hot and cold water. Also available in cold and room temperature version.

*Consult your physician or dentist if using another fluoridated product. **Customer subject to applicable bottle deposits on purchased cases.
